Truck and certificate of approval

Deck surface on the plate on the vehicle different from certificate of approval and not realistic

Journey log:

Estimated time (24h) not realistic: 24 h from departure to the moment when they were stopped

Estimated weight not indicated

Only 1 journey log with 2 different destination

Documents missing

Print of Temperature

Print of navigation system

Additional information

To check

Availability of Water
Ventilation

B T S F

Actions

- 1) Protect animals: put the truck in a shadow, activate ventilation, provide water, wash the animal ($T=22^{\circ}\text{C}$)
- 2) 24 hours expired: stop the journey and unload the truck (find a place where to)
- 3) Another truck to continue the journey after 24h
- 4) New journey log after that???
- 5) Journey log with official stamp: communication to contact point
